

EES Screening Tool for Referral to Rehabilitation Services

The purpose of this screening tool is to help identify appropriate TANF, GA, medical or FS only consumers for VR services. It may be used at any point in a case: assessment, ongoing services, transition, etc.

NOTE: GA, FS, and medical only cases have no EES funding source for vocational assessment.

Consumer Name _____

Describe consumer's interest in work or feelings about work:

Are there available medical records of disability and/ or limitations?

Describe:

If yes, refer directly to Rehabilitation Services (RS) program. Use form IS-4315. Attach copies of records or supporting information.

If no, but you suspect a disability, obtain definitive medical report and/ or refer to CDC or private contractor for vocational assessment and possible medical exams. Use definitive medical report form. Use form IS-4308 or local equivalent.

Are there available psychological or psychiatric records of disability and/ or limitations?

Describe:

If yes, refer directly to RS program. Use form IS-4315. Attach copies of records or supporting information.

If no, but you suspect a disability, obtain definitive medical report and/ or refer to CDC or private contractor for vocational assessment and possible medical exams. Use definitive medical report form.

Use form IS-4308 or local equivalent.

Are there available special education or school records of disability and/ or limitations?

Describe:

If yes, refer directly to RS program. Use form IS-4315. Attach copies of records or supporting information.

If no, but you suspect a disability, obtain definitive medical report and/ or refer to CDC or private contractor for vocational assessment and possible medical exams. Use definitive medical report form.

Use form IS-4308 or local equivalent.
