

**Kansas Department for Children and Families**  
**Monthly Family Income and Family Share Deduction Schedule for Child Care Services**  
**Effective May 1, 2026**

Families may apply for the Child Care Assistance subsidy program. The subsidy amount is based on the gross monthly income and size of the family. If a family's income is over 100% of the federal poverty level, the family may be assigned a Family Share Deduction (FSD), as listed in the chart below. This deduction is used to reduce the total monthly child care benefit and the family then receives the net amount. This net benefit amount may not fully cover the cost of care. The provider charges the family according to their set rates, and any charges not covered by the Child Care Assistance subsidy are the responsibility of the family to pay. Families with income above 85% of the State Median Income (SMI) are not eligible for the Child Care Assistance subsidy program.
