

# PPS Case Summary Page Foster Care and Adoption Assistance

The child is always the Primary Applicant on a PPS Case. The **Address** for a child in foster care is the DCF contractor/agency. When an adoption is finalized the adoptive parents' address is added.

## Case Summary

<b>Case Name</b> ANN ARDONA	<b>Mailing Address</b> ST FRANCIS - FC 509 E Elm SALINA, KS 67401	<b>Phone Number</b> (316)734-6146	<b>County of Residence</b> Kansas
	<b>Home Address</b> ST FRANCIS - FC 509 E Elm SALINA, KS 67401	<b>Alt. Phone Number</b> (316)734-6146	

An *Adoption Assistance* program block is added when the adoption process starts and remains in **Pending Status** until the adoption is finalized. The foster care program block will remain *Active* or *Pending* status until adoption is final.

The *Foster Care and Medical* program block is registered with the application date the child was placed in foster care.

A new *Placement* will display every time a child changes placement and updates on the *Foster Care* program block from data collection pages.

When a **Discontinue** date displays on the *Foster Care* program block it usually represents the day a child is considered no longer be in Foster Care.

In specific scenarios a child might return home but if the child returns to foster care in < 6 months they will show a continuous eligibility. Use the **Status Reason** on a *Discontinued Foster Care* program block to decipher a case.

The *Medical* program block may remain open longer than the *Foster Care* program block. PPS uses a 15/30 rule for timely closure of a *Foster Care Medical* program block. If a child leaves foster care past the 15th of a month, the Medical program will **Discontinue** effective the end of the following month.

When a child is adopted the **Aid Code** will update to **ASM**.
