# SSP Application Search by Confirmation Number

Changes have been made to enhance the privacy of applicants applying via the SSP (online application). A copy of their SSP application will no longer be available in the Message Center.
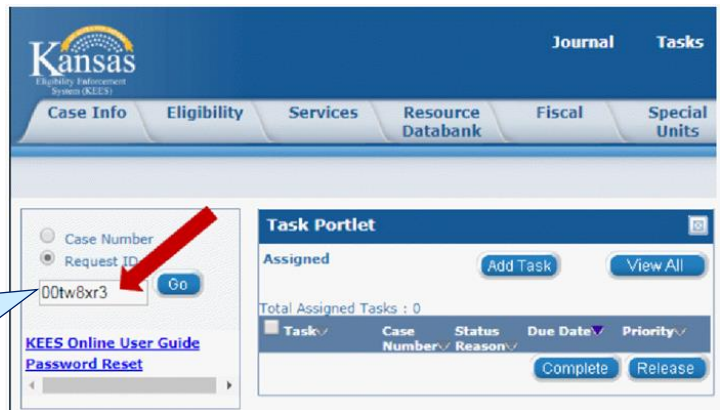

Instead, they will receive a message containing a *Confirmation Number*. This *Confirmation Number* can be used to locate the application in KEES and view the status.

To find a SSP application by Confirmation Number:

1. Enter the *Confirmation Number* in the field.
2. Select the **Request ID** radio button.
3. Click **Go**.

If the application has been registered, a *Case Number* will be populated. If it has not been registered, this field will be blank.

Registered:

The *Case Number* displays.

Not Registered:

The *Case Number* does not display.
