

Supplemental Emergency Water Assistance Program Outreach Notice

Since we previously approved your application for the Emergency Water Assistance Program (EWAP), you will be receiving a supplemental benefit from DCF. DCF will make an additional one-time payment for your household's drinking and/or wastewater. DCF will send this one-time payment directly to your water vendor on your behalf. Payments will be made by the end of August 2023. You will receive a letter from DCF when the supplemental payment is sent to your water vendor.

The water vendor information we have on file for your account is:

Wastewater: **Vendor Name and Account Number**

Drinking Water: **Vendor Name and Account Number**

If your address, water bill account number or water vendor information has changed since you were first approved for EWAP, please contact DCF by June 1, 2023.

Failing to let us know of any changes could result in your household not receiving this one-time supplemental payment.

You do not need to contact DCF if your information is correct and has not changed.

You can update your information with us by:

Email: DCF.WATERAPPLICATIONS@KS.GOV

Mail: DCF
